Creating life without limits for people with disabilities!

What We Do

United Cerebral Palsy Seguin of Greater Chicago (UCP Seguin) is a charitable not-for-profit 501c3 organization that provides unique, person-centered programs and services for children and adults with disabilities in Chicagoland and beyond. We operate 69 community based homes and 8 day services centers in 90 Illinois communities. Our 160 specialized children's foster care homes provide love and support to 200 children in care. Through the Infnitec Coalition, we provide assistive technology and training to over 27,000 individuals with disabilities and their caregivers.

We create life without limits for people with disabilities.

ADULT SERVICES

We ensure that adults with disabilities can live and socialize within their community, by offering residential services in multiple small, community-based homes. And we support their physical and mental well-being and vocational needs with training centers across the region.

CHILDRENS SERVICES

We provide nurturing supports to children and adolescents from birth through 21 years of age through our Specialized Foster Care program. The program includes specialized care for children with medical or behavioral challenges, as well as respite services and group activities.

TECHNOLOGY SERVICES

Our specialized assistive technology and accessibility services allow us to serve more people, advancing independence and promoting inclusive opportunities for thousands of children and adults with disabilities. Infnitec, with its partners, provides invaluable information about assistive technology, as well as training, equipment and access to specialists and resources.
