

# SeguinCares

At SeguinCares, you'll never have to contend with moving an elderly loved one as their condition changes. We'll be with you for as long as you need us. As your loved one's needs change, we will coordinate appropriate services through our existing medical and clinical services at SeguinCares and when required, will arrange for care with specialized providers in the community.

SeguinCares is unlike any other, and is truly a unique model of care for people with the challenges of Dementia, such as Alzheimer's and other memory impairments. Our palliative care approach emphasizes quality of life for your loved one. You can be assured that he or she will receive the personal care required in a comfortable and safe setting that will leave them at peace, and you with peace of mind.

## SeguinCares

**SeguinCares -**  
a home to nourish all the senses.

*A special feeling.*

*A special warmth.*

*That place called home.*

*Specialty care for people with Alzheimer's,  
dementia and other memory impairment disorders.*

### *An Intimate, Upscale Home*

SeguinCares is a special place where your loved one will feel relaxed and comfortable. This is a private and personal setting with no more than 6 residents in a beautiful, fully accessible home that is part of the community.

### *The Value of Personal Life Plans*

Your loved one's needs, wants, personal story, abilities, and functional challenges are built into a Personal Life Plan. Such plans serve as a foundation for everything we do. Structured activities that mirror the Life Plan help our residents enjoy each day, and reflect their life story while promoting self-esteem, dignity, and personal well-being. Throughout our program of care, we use gentle techniques such as redirection, prompting and task breakdown to help residents feel good about themselves and their accomplishments.

### *Caregivers that Matter*

Our dedicated caregivers are chosen for their natural abilities of care and compassion. Then, they are specially trained in memory care and in the SeguinCares way to fully extend our loving, personal services to residents and their families.

### *A Home that Ensures Quality Care and Peace of Mind*

At SeguinCares, we use all of our insights to build homes that deliver a remarkable balance of practicality, a loving, compassionate environment, and modern amenities. The overall environment here is warm and tranquil, projecting the feel of an inviting home that has adjusted to contemporary living. We have combined the comforts of the 21<sup>st</sup> century with familiar items of yesteryear. Antique furnishings create a special ambiance that rekindles memories and a sense of comfort and familiarity. Coat racks contain vintage purses and ladies' hats to further stimulate the senses.

*SeguinCares is unlike any other dementia program. We apply principles that we've learned through more than 60 years of service to the community of individuals with developmental disabilities, and have created a unique model of care. SeguinCares serves those with Alzheimer's, Lewy Body, frontal-temporal dementias, and other memory or behavioral disorders. Seguin Services is a pioneer in serving special needs groups, and those with behavioral challenges and its programs are certified by CARF and Praesidium.*
