

People With Disabilities Need You!

**THEY DESERVE
MORE**

Thank you for being an advocate for people with disabilities in Illinois. Together, we secured a \$170 million increase last year from the state – more than any fiscal year in memory – but nowhere near what is needed to support the community agencies that care for and enrich the lives of people with disabilities 24/7/365.

We usually have longer time to advocate, but this year is different.

The Illinois Senate and House are planning to adjourn much earlier this year (April 8, 2022) in order to accommodate local and statewide elections. It will be more important than ever to show strong, united support.

We have less than two months to make our voice heard!

Philanthropists In Action

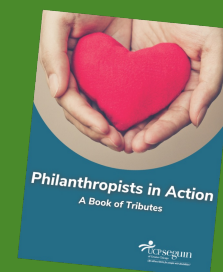

Devoted Parents Seek and Find the Best Care for Their Son

Shankar and Devi Sanwalani have devoted their lives to ensuring their son Vikas receives the care he needs and deserves. In 1975, at the age of three, Vikas was diagnosed with Autism Spectrum Disorder.

At a time when children and adults with developmental disabilities were isolated from society and forced to live in institutions, the Sanwalanis were committed to keeping their son at home and finding professionals and services to aid in his care. [Read more...](#)

Stories of Philanthropy

This story is just one of ten in "Philanthropists in Action : A Book of Tributes" . The stories captured in this book are inspiring and allow us to recognize individuals and families who have played an integral part in the success of UCP Seguin.

Is Fostering For You?

Why I Foster

"As a foster parent, I realize we are really stronger than we think for one reason.

That reason is we have each other. Most of us are going through the same things and coming together as parents can release our pressures. As foster parents, we all bring love, care and support to the table."

Porqué yo soy madre de crianza

"Como madre de crianza, me doy cuenta de que somos realmente más fuertes de lo que pensamos por una razón. Esa razón es que nos tenemos unos a otros. La mayoría de nosotros estamos pasando por lo mismo y reunirnos como padres puede ayudar con la presión del cuidado.

Como padres de crianza, todos traemos amor, cuidado y apoyo a la mesa."
